

\$5.98 million flows to LTUSD

The state of California is beginning to honor its financial obligations to Lake Tahoe Unified School District when it comes to providing matching funds for school facilities.

Last week, \$5.98 million was deposited for the Green Academy at South Tahoe High School.

The district continues to wait for the \$4.3 million for the other CTE projects (Media/Design Arts/Performing Arts); and the ORG money for STHS and South Tahoe Middle School.
