Subscribing to *Lake Tahoe News* costs nothing. Your email address will not be sold – at least by the current ownership. You won't receive spam because of your subscription.

What you will get is a once daily (morning) email telling you everything that has been posted in the last 24 hours. A link is provided to get you immediately to a specific story. A couple paragraphs are included to give you an idea what the story is about.

On occasion you will receive emails about “breaking” news stories. It's Tahoe – we use “breaking” conservatively because we know you're busy – even if busy means hiking, biking or skiing. The last “breaking” story was the decision on Johnny Poland.
