

Earth Day celebration on North Shore

The 2010 Tahoe Truckee Earth Day Festival is slated for April 24 from 11am-5pm at the Village at Squaw Valley. This all-ages, community sponsored event gives participants an opportunity to learn about recycling/composting, alternative energy, sustainability, watershed and forest health, and reducing ecological footprints via a diverse array of agency representatives and earth-friendly vendors. It is the largest eco-event in the North Lake Tahoe-Truckee area. More than 6,000 people attended in 2009.

Earth Day is a Zero Waste event. Typical trash receptacles will not be available in an effort to drastically minimize waste. Booth participants are requested to minimize handouts and implement other forms of waste reduction. All food vendors will be using biodegradable take-out containers made of either paper or PLA, a high tech starch-based plastic. Food and biodegradable waste will be collected and composted by Full Circle Compost in Minden.

In addition to Saturday's festivities, there is an entire week of events scheduled to celebrate Earth Day.
