

Full moon hike

Everything changes after dark – the trails, the trees, and the lake. Experience the Tahoe Rim Trail in a whole new light with full moon hikes in the Tahoe Meadows led by experienced guides.

Enjoy views of the lake as the moon rises over the Lake Tahoe Basin. Experience the peace, tranquility and beauty of the Tahoe Rim Trail at dusk.

Expect casually paced hikes for all ages, while slowing down to enjoy the current happenings in the natural world and nighttime senses.

Bring a flashlight, a wind-proof layer and water.

This may not be the best hike for children under 10 years old. Please, to respect the night sounds, no dogs.
