

Conservation Landscape Tour in Angora burn area

The Tahoe Resource Conservation District is hosting the 3rd Annual Conservation Landscape Tour on Aug. 15th from 1-5pm.

Explore seven gardens in the Angora Burn area that highlight Lake Tahoe Basin conservation techniques. The tour highlights native and adapted plant selection, water conservation techniques, defensible space methods, Best Management Practice demonstrations and wildlife enhancement features.

Last year's event brought together more than 150 Tahoe residents to enjoy a delightful summer afternoon learning about water efficient irrigation techniques and examples of defensible space through proper plant selection, arrangement and management. As you explore the gardens, feel free to ask garden stewards and homeowners questions related to the conservation landscapes.

Pick up your tour map between 1-3pm from 1383 Mount Olympia Circle. The other six locations are nearby. Please leave your pets at home. For more information, contact Courtney at (530) 543-1501, ext. 118 or visit www.tahoercd.org.
