

Composting program at LTCC

The South Lake Tahoe Garden Club will host a public meeting on Sept.28 at the Lake Tahoe Community College Demonstration Garden Pavilion. Guest speakers will be John Marchini from South Tahoe Refuse and Craig Witt from Full Circle Compost in Carson Valley.

They will discuss the current program taking garbage from Tahoe to the valley and turning it into rich black compost.

The program will be an opportunity to learn about an "Earth Friendly" project and to see the newly renovated college garden.

Bring a sack lunch if desired. Light refreshments will be served before the noon presentation.
