

Sustainable Tahoe putting together expo in September

The basin-wide Tahoe Expo put on by Sustainable Tahoe will showcase possibilities in sustainability for the Lake Tahoe region, with focus on Mobility, Green Commerce, Health and Fitness, and Conservation – spanning three fun and educational. The event is Sept. 9-11.

The weekend will be packed with a diverse activities for individuals and families. Friday includes panel discussions and workshops for business and community leaders, as well as students. Saturday begins basinwide activities (Art & Culture, Water, Meadow, Urban), Water & Rim trail “hikes,” and green building tours. Sunday will spotlight the Tour de Tahoe, various electric vehicle and boat demonstrations, and additional activities around the basin (Forest, Maritime, History, River).

Although activities will take place around the entire Tahoe basin, two main stages are planned at the north and south ends of the lake with space to see what’s possible, learn how everything works, and experience it for yourself. A number of topics will be discussed by a variety of industry thought leaders, and demonstration tables will be used to help bring these topics to life.

In an effort to reduce the impact on the environment, we commit to making this a zero-waste event. All materials used will be made from recycled and compostable resources, and recycling will be plentiful. In addition, we’ll work with local ski resorts to encourage parking outside of the basin, with full alternative transit support to get you where you want to go.

The team is currently in the process of scouting speakers,

workshops and demonstrations, as well as coordinating activities to span this weekend. Much more information to come as everything unfolds.
