

KGID looking at raising water rates

Water rates in Kingsbury General Improvement District are proposed to go up 3.08 percent starting July 1.

Information about the proposal is available at 160 Pineridge Drive, Stateline. There will also be a public meeting June 21 at 6pm at the same address. The board is expected to vote on the issue that night.

The current rate is \$65 month for residential customers. That would go up to \$67.
