

TAMBA trail building day with USFS

TAMBA trail work day is July 16.

The mountain bike group has a Volunteer Service Agreement with the U.S. Forest Service and this will be our first official trail building day.

Help build armored berms, strengthen the sandy loose areas of trail, and identify where to build additional features on the top portions of Armstrong connector. Depending on the number of volunteers we have showing up, a crew may also be sent up Armstrong trail to fix what winter destroyed.

Show up at the main bottom parking lot of Corral (just past Saxon Creek bridge) at 9am and then be shuttled to the top to start the trail work.

This trail day is the first of our monthly build days under the VSA with the Forest Service. Even a few hours of volunteer time will go a long way.

Email questions to info@mountainbiketahoe.org. RSVP to the event on TAMBA's Facebook page.

Remember to bring long sleeves, pants, sturdy shoes, gloves and drinking water.

Sprouts is donating 25 lunches to the trail work. Make sure to RSVP early to get a lunch.
