

Volunteering pays off for LTEF

By Nancy Rollston

Lake Tahoe Educational Foundation and South Tahoe High School teens volunteered at the American Century Golf Tournament on July 15. The teens distributed appreciation plaques to amateur participants in each foursome as they finished the 9th and 18th holes. The amateurs were surprised by the presentations and appreciated the photographic mementos.

Teen volunteers had the opportunity to meet the celebrities and were rewarded with many autographs and kind words as well as having the opportunity to participate in community service.

The Lake Tahoe Educational Foundation will receive a generous donation from Livestrong through LTVA for their participation. This donation will enable the foundation to buy musical instruments for school orchestras in Lake Tahoe Unified School District.

Nancy Rollston is president of the LTEF board.
