

October is fire prevention month

The month of October is fire prevention and awareness month.

This month, city fire crews will be visiting all the elementary schools to provide kids with hands-on practice of what to do if your clothes catch on fire, how to escape a burning building, dialing 911 for emergencies, and an introduction to some of the department's apparatus and equipment.

So now is a good time to review fire safety plans with your family, check for working smoke detectors in your home, and establish a meeting area for your family in case of a fire.
