

# Don't forget to vote

It's Election Day.

One of the key things that separates the United States from so many countries is the right to vote.

While it is a right, it is also a duty that should not be taken lightly.

*Lake Tahoe News* applauds all those who run for office or bring their issue (or opposition to an issue or candidate) to the people's attention. It's not easy to be a candidate. They don't hide behind monikers on news sites like this one or others. They are the real deal – like them or not.

Next time you don't like what is going on, ask yourself what you have done to try to change the situation. It takes a group effort to make things work – whether it's a group of five board members or a group of concerned citizens. But it starts with one person. Be part of the solution. It starts with voting.
