

TRPA leader to talk about agency's future

Tahoe Regional Planning Agency Executive Director Joanne Marchetta is hosting a "fireside chat" at Lake Tahoe Community College on Feb. 8 from 6-7:30pm on "21st Century Environmentalism and the Regional Plan Update."

This is the first of two evening talks on how Marchetta is transitioning the bi-state agency from its once-needed focus on stopping runaway growth and parcel-by-parcel regulation, to one focused on encouraging 21st century environmentalism.

A second talk will take place later this month on the North Shore, with date and time still being worked on.
