

Birding Under Sierra Skies

Discover dabblers, divers, and other feathered friends on an early morning walk with Jim Woods, local birder and member of the Lahontan Audubon Society.

See what species are coming and going during the annual spring migration, and what birds will stick around all year. In May, the males will be singing their territorial and nesting songs and will be filling the forest with song. In August, identify the birds in changing plumage from breeding to winter feather and from fledgling to adult as they prepare for the upcoming winter migration. The trips will be along the Carson River and surrounding lands.

The dates are May 26 and Aug. 4, both from 8-11am, and starting at Sorensen's Resort in Hope Valley.
