

Meeting to center on Meyers Community Plan

A community meeting hosted by El Dorado County Supervisor Norma Santiago will take place April 4 from 6-8pm at the Lake Tahoe Environmental Science Magnet School in Meyers.

This meeting will be a first step toward implementing an update of the Meyers Community Plan. The agenda includes a presentation by Santiago in which she will review major components and past processes along with identifying current community assets.

She will then ask for community input and unveil an implementation strategy which includes funding opportunities and next steps.
