

# **A night to learn about birds; a field trip to find them**

Two birding events are coming to the North Shore in June.

The first is June 14 at 5:30pm where people can learn about Tahoe's avian summer visitors. This will be at the Tahoe Center for Environmental Sciences (291 Country Club Drive, Incline Village).

Kirk Hardie, co-executive director of the Tahoe Institute for Natural Science, will be conducting both events.

The second is a bird watching walk on June 16 starting at the UC Davis Tahoe City Field Station. This is from 8-10am.

A \$5 donation is suggested.
