

LTN tidbit 18: Learn about Tahoe's wildlife

May is 31 tidbits about Lake Tahoe News month.

LTN tidbit No. 18:

A recent addition to *Lake Tahoe News* is the weekly column by Lake Tahoe Wildlife Care. Usually Cheryl Millham, executive director of the South Shore nonprofit that rehabilitates wildlife so they can keep living in the wild, writes the articles. Occasionally, Tom Millham, her husband and secretary-treasurer of LTWC, contributes.

The columns run every Saturday.

The articles run the gamut from why swallows are good to what to do when crossing paths with a mama bear and her cubs.
