

Temblor rolls through North Lake Tahoe

People on the North Shore of Lake Tahoe were shaking Friday night when a 4.2 earthquake was recorded at 8:42pm.

The epicenter was near Incline Village.

Six aftershocks ranging from 1.4 to 2.1 had been recorded by the U.S. Geological Service as of 10:46pm June 22.

People as far away as Sacramento felt the quake.
