

Placer County Library surveying public to design services

As part of a strategic planning process, the Placer County Library is implementing a system-wide community survey to obtain feedback from its users and non-users.

The survey will gather information about wants and needs of the Placer County community. Library services will then be designed around these priorities.

The survey is posted on the library website and will be available in paper form in all the libraries.

To access the survey online, go to the library website and then click on the Community Survey link.
