

Caltrans creates online map for motorists

Caltrans has launched Caltrans QuickMap, an online service that provides California motorists with real-time traffic and travel information that will allow them to make better decisions about how to reach their destination more rapidly.

To access Caltrans QuickMap, visit the Caltrans site.

Visitors to the online interactive travel map can access nearly 1,000 freeway cameras and more than 700 electronic message signs on highways statewide. They can also monitor traffic congestion, California Highway Patrol incidents, travel time information, lane closures due to highway roadwork, and Amber Alerts.

Other helpful features of the service include chain control information and color-coded traffic speed displays for freeways statewide.
