

Crew needed to help build features on Corral Trail

Professional plans have been drawn up detailing 30 new features on the Corral Trail in South Lake Tahoe.

Help is needed to build table tops, hip jumps, log rides, berm turns, and rock drops on one of Tahoe's favorite trails. The next trail day is Aug. 25 from 9am to 4pm. Meet at bottom dirt parking lot of Corral off Oneidas Street.

Bring water, lunch, bike, helmet, long sleeves and long pants, gloves, and glasses.

Tools, lunch, snacks, beer, and a barbecue at the end of the day will be provided.

RSVP via the TAMBA website for tool and food planning.
