

Letter: Not giving up on what Prop. 37 stood for

To the community,

Thank you Lake Tahoe News and local businesses. In my efforts to get Proposition 37 passed (GMO labeling) and in doing the small things I could do, I discovered the wonderful kindness and helpfulness of our local people.

It truly is the small business and individuals who make a difference.

Thank you all so much.

I won't give up on this issue. It's as important to our health and the health of the planet as global warming. Thank you again,

Peggy A. Cooley, South Lake Tahoe
