

Comments being taken on trail plans for Truckee

Comments are being taken until Jan. 8 on the draft initial study-proposed mitigated negative declaration for the Truckee River Legacy Trail Phase 3B Project.

The project would construct a paved Class I trail south of the Truckee River, connecting Phase 3A trail (located west of the TTSA Wastewater Treatment Plant) to Glenshire Drive. The project would also construct a bridge over Martis Creek by its confluence with the Truckee River. The trail would travel through property owned by Truckee, U.S. Forest Service, and Tahoe-Truckee Sanitation Agency.

Written comments should be sent to: Becky Bucar, Town of Truckee, Engineering Division, 10183 Truckee Airport Road, Truckee, CA 96161.

The Truckee Town Council is scheduled to consider adoption of the IS/MND on Jan. 8.

For more info, contact Becky Bucar at (530) 582.2932 or bbucar@townoftruckee.com.
