

USFS wants input on OHV grant

The U.S. Forest Service Lake Tahoe Basin Management Unit is seeking public comment for an Off-Highway Vehicle (OHV) Cooperative Funds Grant application recently submitted to the California Off-Highway Motor Vehicle Recreation Division.

The OHMVR grant is used to provide staffing for OHV education and information, law enforcement patrols, resource and use monitoring, and to provide protection for both natural and cultural resources in the Lake Tahoe Basin.

The 30-day public comment period ends April 1. Electronic comments may be submitted to Don Lane at dlane@fs.fed.us or the OHMVR Division at OHVinfo@parks.ca.gov. Written comments may be sent to Don Lane at the LTBMU Forest Supervisor's Office at 35 College Drive, South Lake Tahoe, CA 96150.
