

Cause of Truckee fire ruled 'suspicious'

Truckee officials are calling the April 11 fire at the C.B. White House "suspicious" in nature.

Officials are hoping the public can help with the investigation by providing information if they saw anyone near the 1874 Victorian mansion before the fire erupted.

The fire caused extensive damage to the restaurant at the back of the building. But no further details about how it started have been released.

Anyone with information, should call Detective Arnie Lopez at (530) 550.2336.
