

Learn the basics of geocaching

Rangers at Washoe Lake State Park will teach participants the basics of geocaching and develop their GPS orienteering skills on June 8.

The park will have a limited number of GPS units to loan for the program. If you have one, bring it.

The lesson will be from 9:30am-noon. Meet in the equestrian area pavilion. Washoe Lake State Park is five miles north of Carson City.

There is no charge for the program, but there is a \$7 per vehicle entry fee. Nevada residents receive a \$2 discount.
