

# **Nevada targeting people not wearing seat belts**

The annual Nevada Click it or Ticket seat belt awareness and enforcement campaign is planned for May 18 through June 2.

During this two-week time frame, state troopers, sheriff's deputies, and police officers from around the Silver State will be joining forces and placing a high priority on this vitally important traffic law.

Last year in Nevada there were 234 fatality crashes resulting in a total of 257 traffic-related deaths. The Nevada Highway Patrol investigated 92 of those tragic events where a total of 113 motorists were killed. Thirty-nine of those highway deaths involved drivers and passengers who were not wearing a seat belt.
