

Weekend rain to bring prescribed fires

U.S. Forest Service fuels management crews may resume prescribed fire operations on the South Shore June 23.

If forecasted rain moves into the basin, crews expect to burn approximately 10 acres near the Cold Creek area. Operations are scheduled to last through Tuesday, weather and conditions permitting.

Residents and visitors can expect to see smoke from this prescribed fire project area. The Forest Service strives to minimize the impacts of smoke on local communities. Smoke-sensitive residents should consider staying indoors and keeping doors, windows and outside vents closed.
