

Kids staying warm with coat donation

More than 600 students from South Lake Tahoe schools recently received a new jacket for the winter.

Each year the Kiwanis, with the generosity of grants from the El Dorado Community Foundation, Antique and Classic Boat Society/Classic Wooden Boat Show, and the American Century Championship, is able to purchase these jackets. Eventually the service club would like to buy boots and snow pants for the youth.

Go online to find out more about the project.
