

Website will focus on N. Nevada products

USDA Rural Development Nevada is providing a \$25,200 grant to develop a website that will promote buying local products and services.

Buy Local Rural Northern Nevada includes Douglas, Churchill, Humboldt, Lyon, Mineral, Pershing and Storey counties. Rural Washoe County is also part of project.

The goal of the website is local businesses will be able promote themselves for free and the consumer will then know where to buy local products. It will be open to any type of business.
