

Prescribed fire scheduled for Tahoe City

U.S. Forest Service fuels management crews will begin prescribed fire operations off of Bunker Drive near Tahoe City on Jan. 9.

Crews will burn approximately 1 to 5 acres per day, weather permitting. In addition, crews continue to burn piles near South Lake Tahoe on Luther Pass. Both operations may continue through the weekend, as weather and conditions allow.

Smoke from these prescribed fire project areas can be expected, is normal, and may continue for several days after the initial ignition. All prescribed fires are monitored regularly for burning and smoke dispersal and action is taken to mitigate concerns as they arise.
