

CTC has free firewood available

California Tahoe Conservancy is offering free permits for up to two cords of wood.

The Conservancy treats about 100 acres by hand per year. Usable wood generated by these treatments is bucked into rounds for public collection by permit holders.

Permits and location maps may be picked up at the Conservancy office at 1061 Third S., South Lake Tahoe.

For more information, stop by our office or call the firewood information line, updated weekly, at 530.543.6061.
