

Expo to focus on veterans' health issues

Global Transformation Network is trying to bring awareness to the high number of suicides among veterans.

The goal of a daylong expo on the South Shore on Sept. 6 is to bring awareness to Lake Tahoe-Reno-Carson City and the surrounding areas about healing brain injuries with hyperbaric oxygen therapy.

A free wellness expo will be offered to show the advanced treatments and products for support of brain injury, PTS/PTSD, and depression that lead to mental illness and suicide. Frank Irwin, a hyperbaric oxygen technician expert from North Lake Tahoe, will give a talk at 3pm.

That evening there will be a stage production. "Forever Dreams for Veterans" is described as a live production with a circus feel and a touch of Broadway.
