

Letter: Students deserve a vibrant LTCC

To the community,

Wait, what? Safer? Yes! As a 20-plus-year South Lake Tahoe resident and a recently retired FBI agent, I have experienced Lake Tahoe Community College as a student, a guest speaker, and as an occasional criminal justice instructor.

Over the years, these connections have proven to me just how essential LTCC is in giving our local youth a pathway toward a productive future. Whether students come to the college interested in criminal justice, the Lake Tahoe Basin Fire Academy, early childhood education, wilderness leadership and education, medical and dental office work, or any of the many programs offered at the college, LTCC is our town's ticket to a good job.

Even better, many of these jobs directly contribute to a safer, healthier community for all of us. When our local youth has the opportunity to learn in a world-class, cutting-edge setting, they're on the path toward a great job and a satisfying career for life. And that's something we can all benefit from.

Please vote yes on Measure F this November to help LTCC keep our kids going in the right direction.

Chris Campion, South Lake Tahoe
