

Prescribed burns planned for Tunnel Creek

The Nevada Division of Forestry will be conducting prescribed burns at Tunnel Creek in the Lake Tahoe Nevada State Park backcountry this month and in November, weather permitting.

Tunnel Creek Road from Highway 28 to Tunnel Creek Station may be closed in order to conduct the burns. Signs will be posted throughout the area when burns are being conducted. Thirty-five acres will be burned in six treatment units.

The burns are part of ongoing fuels treatment and forest restoration efforts being conducted by the Nevada Tahoe Resource Team in the Lake Tahoe area. The goal of the project is to create a healthier forest and to make the area more resistant to catastrophic wildfire.
