## Letter: Get the facts straight about oxygen

To the community,

I just couldn't help writing re: Liana's article on 02 depletion.

You should know she is beyond redemption. Saying 02 below 19.5 percent concentration is dangerous is ridiculous as the 02 equivalent at 6,000 feet — Tahoe's elevation — is only 16 percent. I guess we are all zombies. Also, only one molecule of 02 is used to create CO2. Do you realize that if 02 was 30 percent forest fires would burn like no tomorrow.

People are entitled to their own opinions, but not their own facts.

Ken Weitzman, South Lake Tahoe
