

EDC offering back-to-school immunizations

For families without a health care provider, El Dorado County Public Health is offering low-cost back-to-school immunizations.

Public health can provide all childhood vaccinations required for school entry, as well as other vaccinations recommended to keep children healthy.

Call 530.573.3155 for an appointment.

Vaccinations are charged at cost for those who have private insurance. Children on Medi-Cal, or who are uninsured, are eligible for low-cost immunization services; a \$10 administration fee is charged per shot, though no child will be refused a vaccination due to inability to pay.

For dates and locations of free walk-in vaccination clinics, go **online**.

Schools and child care facilities must verify each child's immunization record to ensure all required shots are completed before entry to child care, kindergarten and seventh grade. Students must receive all vaccines according to age and grade requirements.
