

SLT offices open during construction

South Lake Tahoe's Services Center located at 1052 Tata Lane will be undergoing exterior modifications through Sunday.

The center is open during this time.

Work will start on the parking lot and walkway. Some parking will be blocked for construction. Customers may park across the street in the overflow lot or on the street.

The lobby of Lake Tahoe Airport is undergoing an overhaul. All offices are open there as well, including city and other businesses.
