

Letter: Tahoe Summit needs changes

To the community,

The good news is that President Obama is to speak at the Tahoe Summit on Aug. 31. The bad news is that it is to be at Harveys outdoor stage and a band is to perform at the same event – a band named The Killers.

This is entirely unacceptable.

I ask others to join me in calling on Sen. Harry Reid, who is responsible for this scheduling, to either cancel the band's performance or select another venue. As much as I would like to hear the president in person, I will not attend the event in these circumstances.
