

# SurfAir in Truckee increases flights, destinations

The membership airline SurfAir is expanding the number of flights it has out of the Truckee Airport.

Passengers have the choice 12 destinations in California, plus Las Vegas, and this winter European locales will be added. The monthly fee is \$1,950.

The company has been operating in Truckee since 2014. Initially there were seven round trip flights to San Carlos, now there are 20.

This in turn has meant the company has grown its fleet from three to 12.
