

Chamber offering strategic planning workshop

Lake Tahoe South Shore Chamber of Commerce in partnership with the city of South Lake Tahoe is offering a workshop entitled 60 Minute Strategic Plan: Learn How to Solve Your Strategic Issues Quickly and Make Better Decisions Faster.

The goal of the workshop is for individuals and teams to learn an innovative planning and problem-solving system that guides them to think, plan, and act creatively and decisively on strategic issues large and small. This workshop introduces attendees to a one-page, 12-step planning tool that is simple in format, quickly completed, and readily adjusted. During this workshop, participants will select a strategic issue or opportunity specific to their business that they want to resolve, establish the best imaginable outcomes for the issue and develop a plan of action that they can begin implementing immediately.

Workshop facilitator, Anne Marie Smith, is the author of "60 Minute Strategic Plan." Each participant receives a copy of the book.

The workshop is Oct. 26, 2-5pm at the chamber office, 169 Highway 50, Stateline. For more detailed information or to register, go **online**.
