

Imperiled fishes subject of talk at SNC

Nann Fangué will give a talk Nov. 3 for people to learn how people can conserve the imperiled fishes and find solutions by understanding physiological specializations that allow animals to survive and thrive in complex environments.

The world is rapidly changing, including the coastal and inland waters. Find out what is being done and the issues California's coast and inland waters are confronted with.

Registration for this event is required. The program will begin at 6pm with refreshments and no-host bar from 5:30-6pm at 291 Country Club Drive in Incline Village on the campus of Sierra Nevada College.

A \$5 suggested donation will be collected at the door.
