

Power outage in Meyers-Christmas Valley

About 3,000 people in the Meyers-Christmas Valley area without power this afternoon.

Liberty Utilities believes a fuse blew because customers on the streets of Oglala and Mandan reported hearing a bang or boom at about 3:20pm Jan. 29.

Crews are on their way to determine the exact cause of the outage. Liberty also told *Lake Tahoe News* there may be downed wires.

Until the exact cause is determined there is no estimated time when power will be restored.
