

I-80 to have delays as Caltrans makes improvements

Expect delays on westbound Interstate 80 northeast of Colfax on March 1 from 8am-6pm as Caltrans performs a number of maintenance operations.

The left lane of Interstate 80 from just east of Secret Town to Colfax, approximately seven miles, will be closed to perform guardrail repair and maintenance as well as other maintenance tasks. Because there are only two lanes on this length of Interstate 80, motorists are likely to experience traffic delays and are encouraged to plan for additional travel time through the area.

California Highway Patrol will be escorting traffic through the work zone .

Weather or unexpected events may delay or prolong the work.
