

EDSO collecting storm damage reports

El Dorado County Sheriff's Office has Individual Damage Assessment forms for anyone wanting to file a claim from the storms of 2017.

The form allows individuals and other to track their damage from the storms. The information could help California receive a federal disaster declaration.

Completing the form does not guarantee any reimbursement for losses due to the storms.

For more info and to obtain a form, call Deputy Todd Crawford at 530.621.7660.
