

Liberty may have all power restored Friday night

Just as Liberty Utilities makes progress on restoring power, another problem occurs.

The newest outage is affecting about 300 customers in the Martis Valley Road area of Truckee. A tree fell on primary and secondary lines. Power should be back by Friday evening.

The Floriston line has been rebuilt and power restored.

At River Road/Silver Creek/Fir Grags/Highway 89: Progress today; power should return by this evening.

Sudan Road (Tahoe Vista/Carnelian Bay): Crews continue to dig out vaults looking for the problem, but have determined it is not a transformer issue so power could be restored by this evening.
