

I-80 grinding work to cause delays

Caltrans repair work on westbound Interstate 80 east of Truckee on Friday and Saturday will cause delays.

A Caltrans contractor will be grinding off rough patches of asphalt in the westbound No. 2 and No. 3 lanes from 7am-6pm both days.

Work is not expected next week due to storms in the forecast, but will continue the next two months over a 10-mile stretch from just west of Boca to Donner Lake.
