

# **Burn piles to be ignited throughout Tahoe basin**

North Lake Tahoe and Tahoe Douglas fire protection districts, California State Parks, and the U.S. Forest Service plan to continue prescribed fire operations this week.

If conditions are favorable, operations may take place near Sugar Pine Point, Brockway Summit, Incline Village, Glenbrook, Lower Kingsbury Grade, Ski Run Boulevard, Fallen Leaf Lake and Meyers. Operations may continue over the next several weeks, weather permitting. To receive prescribed fire notifications, send an email to [pa\\_ltbmu@fs.fed.us](mailto:pa_ltbmu@fs.fed.us).

Smoke from prescribed fire operations is normal and may continue for several days after an ignition depending on the project size and environmental conditions. Agencies coordinate with state and local county air pollution control districts and monitor weather conditions closely prior to prescribed fire ignition.
