

Expect delays on Highway 28 next week

The Nevada Department of Transportation is advising motorists to anticipate travel delays as Highway 28 will be restriped April 24-27.

Reduced speed limits and travel delays of up to 30 minutes should be anticipated between 8:30am and 2:30pm daily. The mobile road striping operation is scheduled to begin at the Highway 28/Spooner junction on Monday and move west to Nevada-California state line over the following days.

Drivers are reminded to drive safely and not illegally pass in road work zones.
