

Echo Summit work to cause evening delays

Roadwork over Echo Summit will cause delays this week.

Caltrans will be performing overnight grinding and paving work on Highway 50 on a section of the roadway that descends after Echo Summit into the Lake Tahoe Basin.

Work to repair rough sections of the highway will be performed at various locations between Johnson Pass Road and Apache Avenue in Meyers.

Motorists can expect one-way traffic control from 8pm to 8am through Friday morning.
